About the Ticket to Work Program

The Ticket to Work and Self-Sufficiency Program is an employment program for people with disabilities who are interested in going to work. The Ticket Program is part of the Ticket to Work and Work Incentives Improvement Act of 1999—legislation designed to remove many of the barriers that previously influenced people’s decisions about going to work because of concerns over losing health care coverage.

The goal of the Ticket Program is to increase opportunities for Social Security disability beneficiaries to obtain employment, vocational rehabilitation (VR), and other support services from their choice of public and private providers, employers, or other organizations that have contracted with the Ticket Program.

Syntiro became an Employment Network under the Ticket to Work Program in 2009.

What Syntiro’s Employment Network Can Offer YOU:
